Create a graphical view of the famous TV Series Knight Rider's theme light system using HTML, CSS and JS.

01. Add a function to start and stop the the JS animation.

02. Try to represent the fading effects of lights in a proper way.
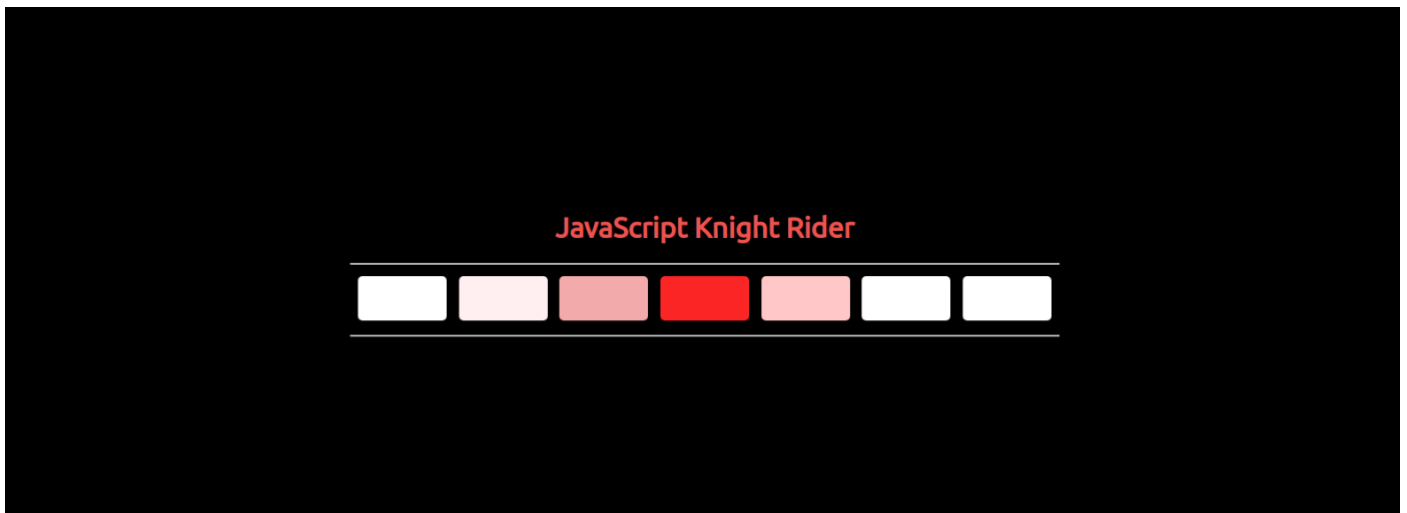

03. Add the related audio to the above animation.

Fig 1 [KITT theme light system]

Sample Video

Note : -

Don't use any type of framework or library from internet besides jQuery to implement this.

Don't copy paste any code from internet.
